## 1. JUSTIFICATION OF THE PROPOSAL

Theatre as a tool for stimulating and encouraging the student to discover, learn and apply the language he/she has learned.

The plays present civic content and are also focused on an educational/student environment that will allow the students to identify with the values contained therein.

The scripts, apart from allowing the play to be performed in the theatre thus creating the recreational and aesthetic aspect, also allow communicative functions, vocabulary and grammatical structures to be developed. These can be worked on beforehand in class using a series of worksheets to facilitate understanding of the plot and contribute to language learning.

This didactic material is adjusted to the level of the students according to the objectives stipulated for said level by the M.E.

## 2. OBJECTIVES:

### General:

- Listening to and understanding messages in varied verbal exchanges, utilizing the transmitted information to carry out concrete tasks.
- Expressing oneself and interacting orally in simple and common situations, using verbal and non-verbal procedures and adopting a respectful attitude.
- Writing a variety of texts with different endings with the help of templates and models.
- Reading various texts in order to understand them, extracting general and specific information in accordance with a pre-established goal.
- Valuing a foreign language as a mean of communication and understanding among people with different places of origin, culture and languages.
- Contributing to the student's knowledge of linguistic, geographic and cultural features of the country where the foreign language is spoken.
- Understanding that theatre is a source of pleasure and personal enrichment, thus fostering his/her interest in it.

### Specific:

- Fostering interest in participating in oral exchanges about routines and situations from daily life in the said foreign language.
- Working on language prosody: aspects of phonetics, rhythm, accentuation and intonation.
- Familiarizing the student, from the start, with the story's plot and different characters in order to facilitate comprehension of the performance during the play.
- Developing two communicative functions per level, providing the student with all the syntactic, grammatical, lexical and phonetic knowledge that make up the said functions in order for the student to be able to grasp them.
- The four basic competencies that each reader needs to control in order to communicate optimally will also be worked on: listening and reading comprehension (L.C.-R.C.) and written and oral expression (W.E.-O.E).

### 3. METHODOLOGY

#### Presentation of Material:

The didactic worksheets included with the material, available to both students and teachers, are designed to be completed over **four sessions of 60 minutes**. The idea behind this is that the worksheets should be integrated into the class routine, reinforcing or applying previously acquired knowledge or introducing new but simple content on languages for a certain level.

#### Material Structure:

The objective of the **first session** is to give the students the necessary hints in order for them to be able to watch the play without any comprehension problems on the day it is performed.

The objectives of the **second and third sessions** have a more communicative goal. They are designed to allow the student grasp two communicative functions.

The **fourth session** will be focused on expression. After having seen it, the student will be allowed to express his/her opinion on the performance (comparing the play's actual ending with the ending he/she had previously imagined; comparing the behavior of the actors with his/her own.)

## APPROACH CHOSEN:

Although our main objectives are to foster interest in theatre and to help the student to grasp two new communicative functions, our approach is intended to be fun, visual and aimed at communication. In fact, on these worksheets, we can find many activities presented as games and which also provide moments of fun in class. Regarding the visual aspect, it must be pointed out that majority of the activities are based on images or cartoons. Finally, all sessions require the student to express him/herself, with activities focusing on situations from daily life or even acting. As such, the goal is to offer activities as an alternative to the class's routine and to make learning a second language more attractive. All of this work is presented as project of the utmost interest: seeing a play in a foreign language.

## ADVICE AND RECOMMENDATIONS:

Before starting on the worksheets and the activities proposed therein, the students must have the script in order to go on to read it. Similarly, given that there are many activities requiring useful and modern resources, there must also be a CD player in the classroom for listening to the scenes and songs. All this material (script, tracks, worksheets) can be requested when booking tickets for the theatre. The material is also available on the following website: [www.recursosweb.com](http://www.recursosweb.com)

In the student section, the sessions are spread out over several worksheets. As such, it is advisable to make as many copies as there are students as soon as possible. As soon as the students have the worksheets, they will be able to complete them, following the instructions given for each exercise and with help from additional materials such as dictionaries and reference manuals in class.

In the teacher's section, you will find all the activities designed for the students as well as the answer key with all the correct answers for all the questions.

Each activity on the didactic worksheets is designed to train the four basic skills in foreign language acquisition: Auditory Comprehension, Reading Comprehension, Written Expression and Oral Expression.

Through these skills, a range of vocabulary, grammatical structures and phonetic aspects are worked on in order to develop a series of communicative functions that we consider key for understanding the play as well for applying them to real situations.

In addition to the presence of the different basic skills, the sessions follow a sequential order. As such, it is important to complete each and every one of the sessions, from the introduction of the characters and the plot to the storyline, culminating in the resolution of the play. Therefore, completing the didactic worksheets before going to see the play is necessary to reinforce the overall comprehension of the play and, at the same time, we create excitement and expectations that could very well be completely found upon leaving the theatre.

You need effort  
And something more  
Do you know what I mean?

Nobody's perfect you know  
You have to work it  
Nobody's perfect you know  
You'll find the way

Nobody's perfect you know  
You have to work it  
Nobody's perfect you know  
You'll find the way

Everybody has a dream  
It will come true  
Sooner than you think  
Will know what I mean?

But a dream is not enough  
You need effort  
And something more  
Do you know what I mean?

Nobody's perfect you know  
You have to work it  
Nobody's perfect you know  
You'll find the way

Nobody's perfect you know  
You have to work it  
Nobody's perfect you know  
You'll find the way

Get into pairs or small groups and try and invent your own verse to the song. Think about:

- The title and what it means
- Do you want the words to rhyme?

When you finish, perform it to your classmates.

## Nobody's Perfect

Didactic Project elaborated by  
Nawaf Mumen González

Follow the music that takes you to the dance floor of this absurd comedy, making your pupils burst into laughter. In the best English adapted for them, they will learn that it is not being the best at something that matters, and that what is really important is to do things with enthusiasm, have fun, and enjoy them. They just have to try to learn the steps... and go with the flow.
